PARTS and COMPONENTS

JOHN DEERE

Your equipment deserves nothing less

Backed by John Deere's reputation of reliability and customer service, Funk™ drivetrain components are designed to operate in a wide range of rugged off-highway conditions.

[Brake Supply Company](#) is ready to assist you in selecting, configuring, and customizing Funk modular pump drives, HMD transmissions, axles, powershift transmissions, and planetary gear drives. Our sales, service, and parts teams are equipped to deliver an integrated drivetrain system that boosts performance, maximizes uptime, and lowers cost of operation.

For more information contact [Brake Supply Company](#), your authorized Funk dealer and service center.
